Outcome and Essential Supports Person Centered Review

DESIRED OUTCOMES	Status of outcome *Achieved = accomplished, removing from plan* *On track = progressing as expected, no gaps/barriers* *Limited or no progress = experiencing gaps/barriers or regress*	Plan updates
Start date: 4/1/2026 End date: 9/14/2026 Steven wants to be an active member in the community and be able to participate in recreational activities that he enjoys.	☐ Achieved ☒ On track ☐ Limited or no progress Status description: Throughout this reporting period, Steve made meaningful progress toward becoming an active member of his community. He participated in community outings and recreational activities that he enjoys with staff support, including walks, shopping trips, and other preferred activities. Steve also set his own weekly routine and chose to stay home at the group home every Wednesday to rest and work on his indoor hobbies and household projects, which staff respected as his personal choice. Steve has begun talking with staff and his case manager about finding a job, and the team plans to support him with seeking employment during the next quarter.	Plan change needed? ☐ Yes ☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026 Steve will become more independent with cooking and meal planning.	☐ Achieved ☒ On track ☐ Limited or no progress Status description: Throughout this reporting period, Steve made significant progress with cooking and meal preparation. For the entire three months, Steve cooked meals for himself with staff nearby for safety and encouragement. He prepared his own food, followed simple recipes, and practiced safe kitchen habits. Steve's confidence in the kitchen has grown noticeably, and he continues to build meal-planning skills with staff guidance.	Plan change needed? ☐ Yes ☒ No If yes, describe:
Essential Supports Risks (identified/potential) and Routine Supports		
Start date: 4/1/2026 End date: 9/14/2026 **Dehydration**	☐ Achieved ☒ On track ☐ Limited or no progress Status description:	Plan change needed? ☐ Yes

Steven "Steve" Lavinus ☐ 1st ☐ 2nd ☒ 3rd ☐ 4th quarterly review covers information from 3/15/2026 through 6/14/2026

☒ Identified Risk ☐ Potential Risk	Throughout this reporting period, Steve made a major improvement in his daily fluid choices. He substituted soda with water and now takes his medications with water instead of soda. Staff continued to offer water regularly and praised his healthier choices. Steve's daily water intake has increased, and this improvement also supports his diabetic diet. No signs or symptoms of dehydration were observed during this reporting period.	☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026 **Seizure** ☒ Identified Risk ☐ Potential Risk	☐ Achieved ☒ On track ☐ Limited or no progress Status description: Throughout this reporting period, staff monitored Steve closely for signs of seizure activity and followed all related protocols. Steve has experienced two seizures within the past year; however, no seizure activity was observed during the past several months. Staff continued to provide supervision, document concerns if noted, and ensure Steve attended medical appointments related to his seizure disorder. No additional concerns were reported during this reporting period.	Plan change needed? ☐ Yes ☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026 **Pressure Injury** ☐ Identified Risk ☒ Potential Risk	☐ Achieved ☒ On track ☐ Limited or no progress Status description: Throughout this reporting period, staff encouraged Steve to remain active and change positions regularly throughout the day to reduce the risk of pressure injuries. Staff monitored his skin integrity and checked for any signs of redness, irritation, or skin breakdown. No concerns related to pressure injuries were observed during this reporting period, and Steve's health remained stable.	Plan change needed? ☐ Yes ☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026 **Aspiration Pneumonia**	☐ Achieved ☒ On track ☐ Limited or no progress Status description:	Plan change needed? ☐ Yes

☐ Identified Risk ☒ Potential Risk	Throughout this reporting period, staff monitored Steve during meals and reminded him to eat and drink at a safe pace. Staff encouraged him to take smaller bites and chew thoroughly to reduce the risk of aspiration-related concerns. Steve responded appropriately to staff reminders, and no signs or concerns related to aspiration pneumonia were reported during this reporting period.	☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026 **Fall with Injury** ☐ Identified Risk ☒ Potential Risk	☐ Achieved ☒ On track ☐ Limited or no progress Status description: Throughout this reporting period, staff continued to monitor Steve's mobility and safety throughout the home and community. Staff provided support and reminders when needed to reduce fall risks and maintain a safe environment. Steve remained steady with walking and mobility, and no falls with injury were reported during this reporting period.	Plan change needed? ☐ Yes ☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026 **Bowel Obstruction** ☐ Identified Risk ☒ Potential Risk	☐ Achieved ☒ On track ☐ Limited or no progress Status description: Throughout this reporting period, staff monitored Steve's bowel movements and encouraged healthy eating habits and fluid intake to support bowel health. Staff checked in with Steve regularly regarding any concerns or discomfort. No issues related to constipation or bowel obstruction were reported during this reporting period.	Plan change needed? ☐ Yes ☒ No If yes, describe:
Start date: 4/1/2026 End date: 9/14/2026	☐ Achieved ☒ On track	Plan change needed?
